

## Rhapsody

### Description

America's #1 subscription music service lets you listen to ALL THE MUSIC YOU WANT on your iPhone, iPod touch or iPad for JUST \$10 A MONTH. And with this new version, you can even DOWNLOAD PLAYLISTS TO YOUR DEVICE. New customers can TRY IT NOW FOR FREE. If you're already a member, it's even easier, just install the application, sign in and start downloading – your personalized library will already be there.

Rhapsody lets you choose from over 9 million songs, build your perfect playlist and download straight to your device. Create the perfect mix for your commute, your workout or your flight – and download it instantly. By listening directly from your device, you won't need an active connection and you'll save battery life compared to streaming. Individual song and album downloading is coming soon – so you'll be able to find, tap and download in a snap. Get started by installing the app and starting your free preview.

A Rhapsody preview or subscription is required. OS 3.1.x for iPhone and iPod touch is recommended. There are known issues with OS 3.0.x and 4.0 that are currently being addressed. Streaming music requires an active Internet connection. Downloaded playlists can be accessed without an active connection.
